The innovative Biomix for preparing natural garden solutions

Soft touch connectors for added grip and comfort

Auto Reel - New, improved and still the best!

Mobile app that controls your garden watering

Premium connector, anti-kink flexible sleeve

New Sprayer range, simple and comfortable

Flexible spray, lance and sprinkler

HOZELOCK

Hozelock's Innovations for 2019

Hozelock Pure Kit and Tank - Page 6

A new addition to the Hozelock Pure sprayer range - this handy kit comes with a 1.25l sprayer for application of natural and homemade recipes for weeding, pest control, feeding and cleaning the house that is effective, accurate and fast.

Also included is a tank to store your preparations, a dosing spoon for easy application and a recipe booklet to get you inspired!

Bokashi Composter - Page 6

All kitchen food waste can be fermented in the Hozelock Bokashi airtight composter, not just vegetable waste, but table scraps, meat, fish and dairy too. All your kitchen waste goes into your garden, not into landfill.

With the addition of Bokashi Bran, a combination of bran and effective microorganisms, it delivers a fertilizer liquid in just 5 days, and nutrient-rich compost for your plants in just 15-20 days.

Biomix - Page 7

Garden without chemicals with Hozelock Biomix to easily make liquid feed or natural insecticide for your plants. It's easy with the Biomix, which has a lid and mixing action to ensure that the comfrey leaves decompose quickly whilst the pungent smell is contained within the mixer.

An integral strainer and tap makes removing the plant debris and draining the liquid into storage bottles easy. The resulting nutrient-rich compost tea can safely be used on all garden plants and the plant debris makes a top quality compost activator.

Green Power XL - Page 7

Weed 5 times faster with Green Power XL! This new thermal weeder comes with a powerful 2000W engine and 600°C temperature across the whole shield area for efficiency.

Two easy-to-change shields provide coverage for every part of the garden - an XLarge 25cm rectangular shield for gravel, paths and borders, and a smaller round shield for lawn and vegetable gardens.

Seringa Sprayer - Page 48

Reach new heights with the versatile multipurpose Seringa sprayer, ideal for washing cars and treating roofs, gutters and trees.

It comes with a 60cm fibreglass, ergonomic lance handle and the tank stays on the floor at all times connected to a 10m hose for user ease. The Seringa is always ready to use - just insert the hose into the container and you are ready to spray.

Plant a Pot Campaign - Page 50

We've got a bee in our bonnet about helping our friends the bees! With the help of Bizzi, our friendly bee, we are encouraging everyone to plant one or more pots of bee friendly plants to help save the bees.

Take a look at how you can make a difference by bringing the campaign to life in your store and digitally with our inspiring point of sale material.

YOU CAN MAKE A DIFFERENCE

Natural Gardening

Get into green with natural gardening. Today's gardeners are reaching less for chemicals and more for organic and natural solutions to create their green garden.

Gardens can flourish naturally with the help of Hozelock's new Pure range - a collection of gardening equipment that helps consumers to really connect with their gardens and to care for the environment at the same time. Combining design features that ensure the highest effectiveness and ease of application for natural products, it's a sure recipe for success.

HOZELOCK

Hose Storage

Keep your hose tidy, protected and ready to use with a fuss-free storage solution from Hozelock.

Our reels and carts make it a breeze to get water where you need it around the garden.

Use a compact reel to get the most out of small gardens and balconies, or choose the comfort and practicality of automatic rewind and automatic layering for larger gardens.

Auto Reel - the automatic rewind hose reel

Watering your garden and storing your hose is so easy with Auto Reel.

It smoothly unwinds only the amount of hose that you need.

When you are finished, the automatic rewind system effortlessly stores the hose away, with no kinks or tangles.

Use all over your garden
The multi direction wall hanger rotates 180º to follow you around the garden or sit neatly against the wall.

Always ready to go
The built in hose stop prevents the hose fully retracting so it is easily available every time.

Convenient storage
The hanger on the 2401, 2402 and 2403 has storage space for spray guns and accessories to help keep your garden tidy.

Quick to fit or remove
The wall hanger design and carrying handle mean you can quickly put the Auto Reel on the wall or take it off again.

Safe and secure
Features a child lock for reassurance and a padlock* fixing point for security.
*Padlock not included.

Not all connectors are made equal, see what makes ours the best

2070

2075
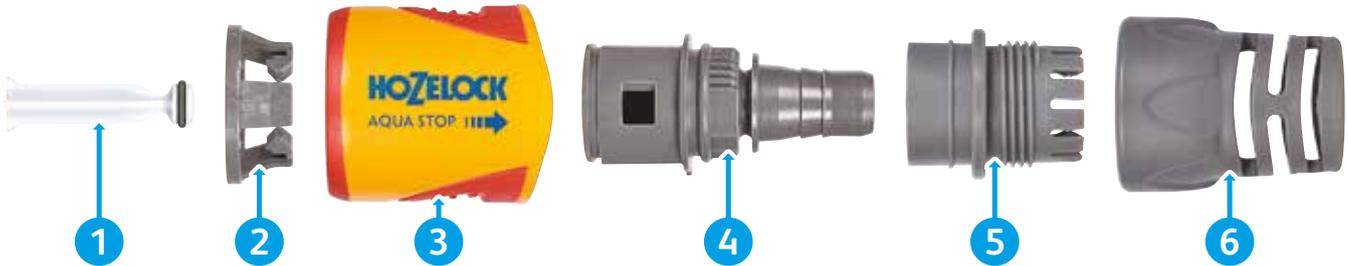

1 Water Stop Valve (AquaStop only)

Manufactured from ABS for impact resistance and rigidity. Stops water after removing the watering device.

2 Connection Grip

Manufactured from Dupont Delrin® Acetal with a silicone additive for ease of use. Triple connect point for the strongest possible connection.

3 Outer Sleeve

Manufactured from ABS for impact resistance and strength with soft touch over-moulding for an enhanced grip.

4 Tough Inner Core

Manufactured from Dupont Delrin® Acetal, one of the most crystalline engineering thermoplastics, to bridge the gap between plastics and metals.

5 Connection Grip

Polypropylene teeth stay resistant to repeated stress and provide a secure hose clamp.

6 Hose Tail (Plus and Pro only)

Manufactured from tough, but flexible Polypropylene for a secure hose connection that prevents kinking.

Sprayers

Sprayers can be used for a number of different purposes around the garden, including killing weeds and protecting or feeding plants.

The Hozelock sprayer range comes in a number of sizes to ensure they can treat your garden without the need to refill constantly.

Hozelock 'Last Drop' technology ensures zero wastage so every last drop of fertiliser or chemical is used before refilling.

HOZELOCK 49

Plant a Pot

With the help of Bizzi we are encouraging everyone to help save bees by pledging to plant one or more pots of bee-friendly plants.

Hozelock's 2018 campaign has proven that gardeners are keen to engage.

Take garden watering beyond the watering aisle...and grow your profits.

"Bees need our help!"

For two decades bees have been disappearing by the millions.
Bees are incredible pollinators,
and they provide one third of the food on our plates.
We need them and they need our help!

Plant a Pot can help your business

Display, pots, plants and compost - even bee hotels - together with Hozelock watering by using our eye catching point of sale displays.

With displays throughout your centre it couldn't be easier to encourage consumers to plant a pot to save bees and to increase their basket size too!

IN-STORE

With support from Hozelock's Plant a Pot POS, you will be able to create a cross-category story, drive impact and engage with consumers around your store.

Add a range of products from relevant categories to tell the story and to inspire purchase, all the time knowing that you too are helping to save bees!

EVENTS

Why not encourage consumers to increase dwell time in all areas of your store with fun events for all. They'll leave your store feeling positive, knowing they have done their bit for bees.

Hozelock can provide bespoke artwork and advertising materials to support your event throughout your communications.

DIGITAL

Bring the campaign to life on your website and social media. Hozelock can offer the digital assets to give you a full marketing support package.

Our campaign had great success online in 2018 with over 15,000 pledges in just 3 months! That's a high value potential sales opportunity ready for you to take your share.
