

HOZELOCK

Scandinavian - 2021

Founded in 1959 in the village of Haddenham, England, our drive has always been to develop technically perfect products as part of a system

Our first product was the world's first plastic hose connector – the Hoze-Lock.

Today, we are a global garden equipment manufacturer with our head office in Birmingham (UK).

Over 75% of our watering and spraying products are made in Britain and in France, with the remaining 25% built at our overseas factories in Malaysia, Taiwan, and China.

During the COVID-19 pandemic, Hozelock have remained committed to manufacturing and delivering products to customers whilst keeping it's dedicated workforce safe

Measures have been put in place to allow employees to work from home where possible, our factories are adapted for social distancing and face masks made accessible to all. In response to demand, Hozelock were able to react quickly making a new disinfection sprayer dedicated for use with bleach (see page 09) and with European manufacture could distribute these rapidly.

In France, over 2000 FFP2 masks were donated to the hospital in Villefranche, local to Hozelock's French headquarters.

HOZELOCK

Top tips for watering an urban garden

For many, and particularly those living in an urban area, outdoor space is limited to a small terrace, balcony or even a window box! We have product solutions to enable all consumers to grow thriving plants and vegetables whatever the size of their garden sanctuary.

Don't have an outdoor tap?

No problem! Hozelock have a range of indoor tap connectors to allow you to connect your hose to your available water source. You can connect and feed a short hose, like the Superhose 7.5m, through the window to get water out to your garden space.

Fittings
Page 25

Even with a small space you can 'grow your own'

with the Growbag Waterer - the easiest way to grow tomatoes! Use a planting table to stack a couple in the corner of your outdoor space.

Watering Solutions
Page 39

Use a stylish trigger sprayer

on your balcony or indoors on your houseplants for quick and easy watering. Going on holiday? Recycle a water bottle and use with an Aquasolo to ensure your house plants stay hydrated while you're away.

Watering Solutions
Page 38

NEW! Micro Reel with 'Click & Go' design

Simply 'click' the connector onto the tap and let the rotating drum unwind the hose as you walk. The integrated handle makes rewinding the hose quick and easy.

Equipped with 10m of hose and a nozzle, it is ideal for watering small gardens and balconies. Offering the benefits of a larger reel, stored neatly in a compact size!

Hose Storage - 25-2427 Micro Reel - Page 14

Recycle your kitchen waste in a composter, instead of your landfill bin

The compact Bokashi Composter is easily hidden under the sink or in the corner of your outdoor space with a tight lid to eliminate odours.

Put all your food waste in the composter, layered with our Bokashi bran, and collect your rich fertilizer liquid in days! Spray accurately on your plants with a Pure Sprayer and watch your plants and vegetables flourish.

Natural Gardening - 28-4193 Bokashi Composter - Page 49, 26-4200 Pure Sprayer - Page 49

Automatic Watering

An EasyDrip Micro Kit allows you to create a network of automatic watering to the pots and hanging baskets around your patio.

Connect to a Sensor Controller on the tap and your pots will be watered automatically at sunrise and sunset according to your instructions - saving you water, time and effort!

Automatic Watering - 28-7024 Micro Kit - Page 41, 28-2212 Sensor Controller - Page 43

Sprayers

Sprayers are suitable for applying many different garden chemicals, offering an economical solution to treating large areas effectively and comfortably.

In 2021, Hozelock launches its new range of sprayers compatible with a variety of different treatments to suit every gardener.

Our product features have the user in mind to ensure maximum efficiency including the innovative new Multi Nozzle which offers the user 3 spray nozzles in 1.

Hose Storage

Keep your hose tidy, protected and ready to use with a fuss-free storage solution from Hozelock.

Our reels and carts make it a breeze to get water where you need it around the garden.

Use a compact reel to get the most out of small gardens and balconies, or choose the comfort and practicality of automatic rewind and automatic layering for larger gardens.

Auto Reel - the automatic rewind hose reel

Watering your garden and storing your hose is so easy with Auto Reel.

It smoothly unwinds only the amount of hose that you need.

When you are finished, the automatic rewind system effortlessly stores the hose away, with no kinks or tangles.

Use all over your garden

The multi direction wall hanger rotates 180° to follow you around the garden or sit neatly against the wall.

Always ready to go

The built in hose stop prevents the hose fully retracting so it is easily available every time.

Convenient storage

The hanger on the 2401, 2402 and 2403 has storage space for spray guns and accessories to help keep your garden tidy.

Quick to fit or remove

The wall hanger design and carrying handle mean you can quickly put the Auto Reel on the wall or take it off again.

Safe and secure

Features a child lock for reassurance and a padlock* fixing point for security.

*Padlock not included.

Tuffhoze - advanced hybrid hose technology

Advanced hybrid garden hose, combining the best of two hose technologies.

Traditional PVC:

- Dura-Tech inner core for incredible flexibility and maximum strength.
- High pressure burst resistance 40+ bar, in conjunction with the outer textile layer.
- Constant, high water flow even at low temperatures.
- Guaranteed length.

Textile:

- Tuff-Fibre woven technology ensures enhanced durability for long lasting wear.
- Amazingly flexible, effortless to manoeuvre and store.
- Kink free & ultra lightweight.
- UV resistant & easy to clean.

Includes:

Compared to traditional hoses:

✓ Up to 50% lighter

✓ Kink free & easy to manoeuvre

✓ Super tough & durable

1 Hozelock quick connect system
Compatible with all accessories.

2 Premium metal fittings
Deliver a hard wearing connection that is built to last.

3 Guaranteed leak-free fittings
Ensures a water tight connection.

4 Dura-Tech PVC inner core
For maximum flexibility and strength.

5 Tuff-Fibre woven technology
Ensures enhanced durability and ultra light-weight.

Not all connectors are made equal, see what makes ours the best

1 Water Stop Valve (AquaStop only)

Manufactured from ABS for impact resistance and rigidity. Stops water after removing the watering device.

2 Connection Grip

Manufactured from Dupont Delrin® Acetal with a silicone additive for ease of use. Triple connect point for the strongest possible connection.

3 Outer Sleeve

Manufactured from ABS for impact resistance and strength with soft touch over-moulding for an enhanced grip.

4 Tough Inner Core

Manufactured from Dupont Delrin® Acetal, one of the most crystalline engineering thermoplastics, to bridge the gap between plastics and metals.

5 Connection Grip

Polypropylene teeth stay resistant to repeated stress and provide a secure hose clamp.

6 Hose Tail (Plus and Pro only)

Manufactured from tough, but flexible Polypropylene for a secure hose connection that prevents kinking.

Cloud Controller - the future of automatic watering

Control your garden watering from your mobile phone! It doesn't matter if you are on holiday or at work - your plants will no longer need to suffer if weather conditions change.

- Easy to use app to control your garden watering from your mobile (Apple or Android operating system) with Hozelock hub and remote tap unit.
- App allows you to remotely set, pause and adjust watering schedules.
- App includes a local weather summary and push notifications to keep you informed about changes to weather patterns.
- Ideal for when you are away from home and weather conditions change, to remotely pause and adjust schedules.
- Each hub can control up to 4 remote tap units.

Control your garden watering from your mobile phone

- 1 Mobile app allows you to set the watering schedule whilst away from home.
- 2 Hub plugs directly into internet router for secure connection and simple installation.
- 3 Hub links wirelessly with remote tap unit that can be positioned up to 50m away in the garden.
- 4 Each hub can control up to 4 remote tap units.

*Requires Smartphone with Apple iOS or Android operating system, Ethernet Port and internet connection. Requires 2 x AA 1.5v Lithium/Alkaline batteries - not included.

HOZELOCK

Natural Gardening

Produce homemade nutrient-rich liquid feed out of plants such as nettles and comfrey.

An efficient way to fertilise your plants and to prevent plant diseases.

The closed tank has a lid and mixing action to ensure that the leaves decompose quickly whilst the pungent smell is contained within the mixer.

Easy to use filter to drain the liquid and integrated tap to recover the fertiliser.

How to use it?

- 1 Cut 1kg of plants and place them inside the tank.
- 2 Add 10L water.
- 3 Close the lid, and stir thoroughly every 2 days.
- 4 After about 10-15 days, when there are no longer bubbles rising to the surface, the maceration is complete.
- 5 Filter.
- 6 Recover the liquid fertiliser in an opaque drum.
- 7 Dilute your plant fertiliser with water. The dilution is indicated in the usage booklet. (between 5% and 20%)

Use it with a sprayer or watering can.
